Round light

The LED-round light 1MB CWN M5503-4W is a robust IP67 built-in light for direct installation in machines. The illumination-geometry is an oval.

The mounting direction is front-sided.

The lamp connection is by means of a standard M12 sensor cable. The pin configuration of the M12-connector is according to the machine building standards: pin4= +24VDC, pin 3= 0V

The LED lamp can be controlled directly via PCC output as the current consumption is less than 150mA.

The lamp has an active temperature management to protect the LEDs. In case of excessive heat the LED current will be reduced.

The LED light is cold white.

The housing materials are suitable for applications in critical environment (e.g. coolants and lubricants).

A replacement of illuminants is not necessary. Due to high quality LED technology, the lamp achieves a life cycle of more than 50,000 operation hours.
