Godwin Sub-Prime® Technical Specifications

GST05

GSP10

GSP35

GSP80

GSP300

GSP600

	Rated HP	Speed RPM	Operating Voltage	Rated Current Amps	Discharge Connection	Weight	Maximum Height	Maximum Width	Maximum Solids
GSP Dewatering Pumps - Single Phase									
GSP05	0.5 HP	3600	115, 230	5.8, 3.2	2"	20 lbs	12.8"	7.2"	0.33"
GSP10	1.0 HP	3600	115, 230	10.3, 5.11	2"	29 lbs.	14.1"	7.2"	0.33"
GSP20	2.0 HP	3600	115/230	25.9/13.0	3"	61 lbs.	24.5"	9.25"	0.33"
GSP25	2.5 HP	3400	230	12.0	3"	57 lbs.	21.5"	9.5"	0.3"
GSP45	4.5 HP	3400	230	20.0	4"	94 lbs.	25.5"	11.0"	0.33"
GSP60	6.0 HP	3400	230	25.0	4"	107 lbs.	25.5	11.0"	0.33"
GSP Dewatering Pumps - Three Phase									
GSP35	3.5 HP	3400	230/460	9.0/4.5	3"	57 lbs.	21.5"	9.5"	0.3"
GSP55	5.5 HP	3400	230/460	14.0/6.9	4"	94 lbs.	25.5"	11.0"	0.33"
GSP80	8.0 HP	3400	230/460	22.0/11.0	4"	107 lbs.	25.5"	11.0"	0.33"
GSP130	13.0 HP	3400	230/460	33.0/16.0	4"	131 lbs.	27.5"	11.0"	0.33"
GSP160	16.0 HP	3500	230/460	41.0/20.0	6"	267 lbs.	34.7"	15.5"	0.5"
GSP300	30.0 HP	3500	230/460	72.0/36.0	6"	355 lbs.	39.5"	16.5"	0.5"
GSP600HV	60.0 HP	3500	460	63.0	8"	628 lbs.	53.5"	20.5"	0.5"
GSP600HH	60.0 HP	3500	460	55.0	6"	628 lbs.	53.5"	20.5"	0.5"
GSP600SV	60.0 HP	1750	460	58.0	8"	628 lbs.	53.5"	20.5"	0.5"
GSP800HV	80.0 HP	1750	460	93.0	8"	1190 lbs.	55.0"	29.5"	0.5"
GSP800HH	80.0 HP	3500	460	93.0	6"	1190 lbs.	55.0"	29.5"	0.5"
GSP800SV	80.0 HP	1750	460	93.0	10"	1190 lbs.	55.0"	29.5"	0.5"
GST Trash Pumps - Single Phase									
GST05	0.5 HP	3600	115, 230	5.8, 2.9	2"	22 lbs.	14.7"	9.9"	1"
GST10	1.0 HP	3600	115, 230	10.3, 5.1	2"	29 lbs.	16.4"	9.9"	1"
GSL Sludge Pumps									
GSL30 Single Phase	3.0 HP	3400	230	16.0	3"	62 lbs.	27.0"	15.0"	2"
GSL35 Three Phase	3.5 HP	3400	230/460	9.5/4.8	3"	62 lbs.	27.0"	15.0"	2"

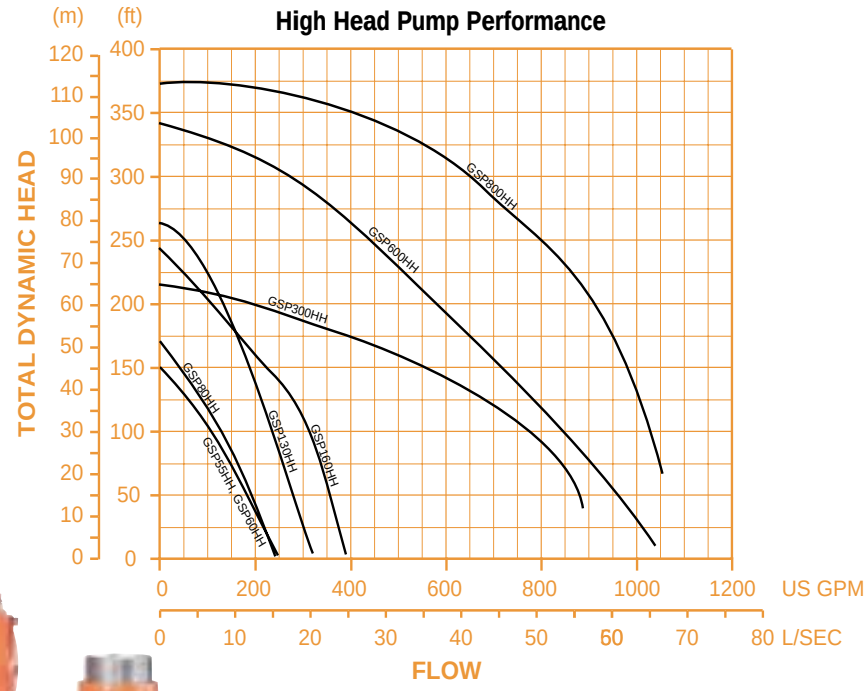

Power cable: 65' standard, except for the following: 30' for GSP05 and GST05; 50' for GSP10, GSP20 and GST10.

Godwin GSP Sub-Prime® Large Dewatering Pumps

Features and Benefits:

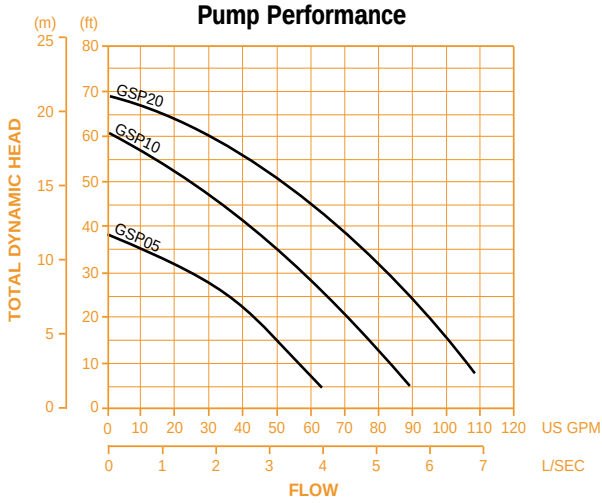

- Compact, slim-line, top discharge design to fit into confined spaces
- Dual voltage junction chamber for convenient voltage changeover in the field
- Dual phase available for electrical supply flexibility (selected models)
- Tandem mechanical seals – silicon carbide on silicon carbide primary seal – for dry running and extra protection against leakage
- Cast chromium steel impeller and heavy duty rubber coated adjustable wear parts for maximum pump life

Godwin GSP Sub-Prime® Small Dewatering Pumps

Features and Benefits:

- Compact, slim-line, top discharge design to fit into confined spaces
- Durable silicon carbide upper and lower mechanical seals and external lip seal – protects against leaks and runs dry without damage
- Reliable high-torque, capacitor-start motor with thermal overload protection
- Portable, lightweight and durable
- Non-wicking power cable

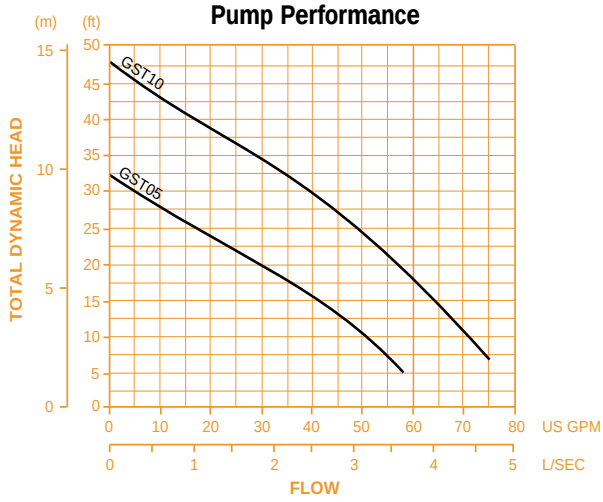

Godwin GST Sub-Prime Trash Pumps

Features and Benefits:

- Side discharge, semi-vortex impeller and fully removable abrasion-resistant volute – handles solids up to 1" in diameter
- Durable silicon carbide upper and lower mechanical seals and external lip seal – protects against leaks and runs dry without damage
- Reliable high-torque, capacitor-start motor with thermal overload protection
- Portable, lightweight and durable
- Non-wicking power cable

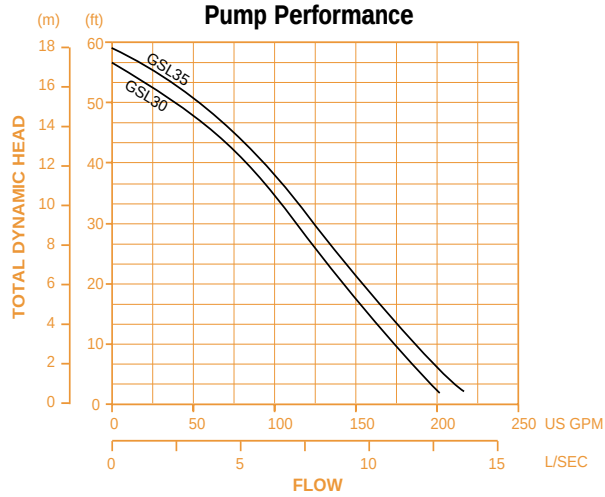

Godwin GSL Sub-Prime Sludge Pumps

Features and Benefits:

- Side discharge design handles solids up to 2" in diameter
- Lightweight cast aluminum construction
- Tandem mechanical seals – silicon carbide on silicon carbide primary seal – for dry running and extra protection against leakage
- Cast chromium steel vortex impeller and heavy-duty rubber lined volute for maximum pump life

Choose Godwin Sub-Prime® Electric Submersible Pumps

… for the Best Service and Parts Availability in the Industry

For over 25 years, the name Godwin Pumps has been synonomous with quality pumps, backed by the best customer service in the industry.

Our Sub-Prime line of electric submersible pumps come with the same commitment to quality and service you've come to expect from Godwin Pumps. Our technicians are always on call, 24 hours a day, 7 days a week. And our commitment to be the best doesn't stop there. Parts are always in stock and available, day or night. With branch and distributor locations nationwide, there's always a Godwin representative close by and ready to help you.

Call us today, we have the right pump for your job.

Service 24 hours-a-day, 7 days-a-week – Godwin Pumps is available to serve you around the clock. Our staff is on call to meet your pumping emergencies no matter when they might occur.

On-Site servicing and repairs – We have experienced, radio-dispatched road mechanics and a fleet of fully-stocked service trucks to service and repair rental and customer-owned equipment on site.

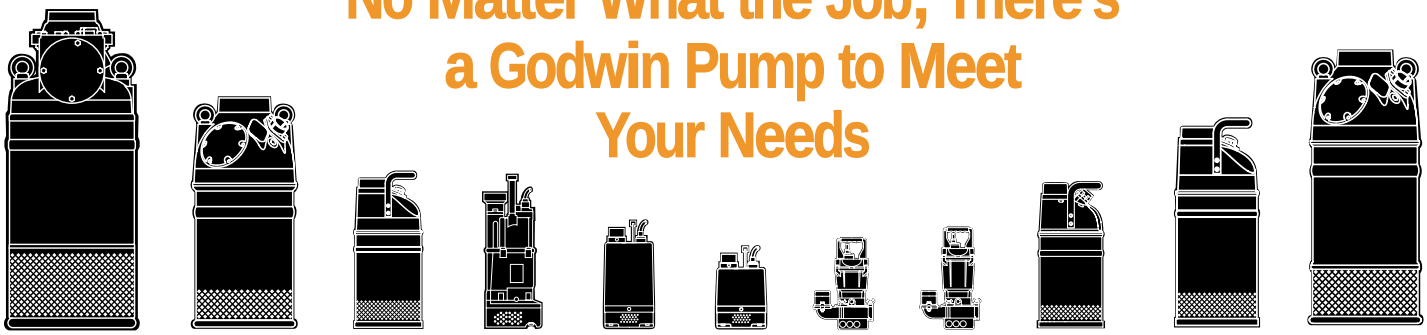

Application specialists – When you choose Godwin Pumps, you have skilled personnel on your side from start to finish. Our application specialists ensure that you rent the right equipment for your job. And we continue to work with you throughout installation and testing, until the pumping system is up and running.

Extraordinary parts, service, testing facility – Our newly expanded parts and service center provides over 30,000 square feet of space dedicated to pump service, testing and parts inventory. Here, our experienced mechanics perform everything from simple repairs to complete pump overhauls, in a timely and cost efficient manner.

Godwin Pumps – A Quarter Century of Excellence at Work for You.

No Matter What the Job, There's a Godwin Pump to Meet Your Needs

Whatever the application, Godwin has the right pump for your job. Whether it's a Sub-Prime, Dri-Prime or Heidra pump, electric or diesel powered, all of our equipment is backed by the 24-hour-a-day, 7-days-a-week service that Godwin's reputation is built on.

Call us today … we work to provide the best solution for you.

Godwin Dri-Prime® Pumps – As the keystone of the Godwin Pumps product line, the Dri-Prime is the pump of choice for all types of temporary and permanent applications. Rugged and reliable, the Dri-Prime out-performs the competition at every turn with features such as automatic self-priming to 28 feet, dry-running capabilities, solids handling and high discharge heads.

Heidra® Hydraulic Submersible Pumps – Available in sizes from 3" to 12", these diesel driven, hydraulic submersible pumps can meet a variety of flow and head requirements with only simple throttle adjustments.

Electric Drive Dri-Prime Pumps – Long lasting and durable, permanently installed electric drive Dri-Prime pumps provide continuous pumping and reduced costs. For temporary jobs where refueling is difficult, an electric drive Dri-Prime pump is the solution.
