Electric Drive

Dri-Prime® Pumps

6" CD150M Electric Dri-Prime

For maximum performance, choose an electric drive Godwin automatic self-priming Dri-Prime pump. Designed for long lasting durability, the electric drive Dri-Prime pump is ideally suited for both temporary pumping and permanent installations. Perfect for industrial and municipal applications, a permanently installed electric drive Dri-Prime pump will provide reliable, continuous pumping and reduced operating and maintenance costs. Or for temporary jobs where refueling is difficult, an electric drive Dri-Prime pump is the solution. Plus, electric drive Dri-Prime pumps can be customized using a wide range of speeds and impeller trims in the CD (solids-handling, medium head) or HL (high head) ranges of the Dri-Prime pump series.

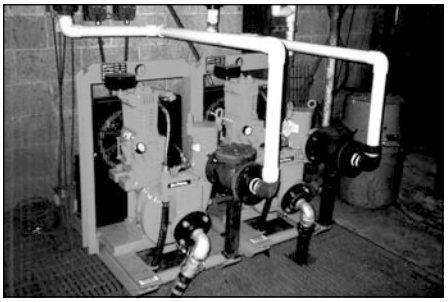

Industrial Storm Water Sump – Permanent installation of two 6" HL5M electric drive Dri-Prime pumps

API Separator Sludge Removal – Permanent installation of two 6" CD150M electric drive Dri-Prime pumps

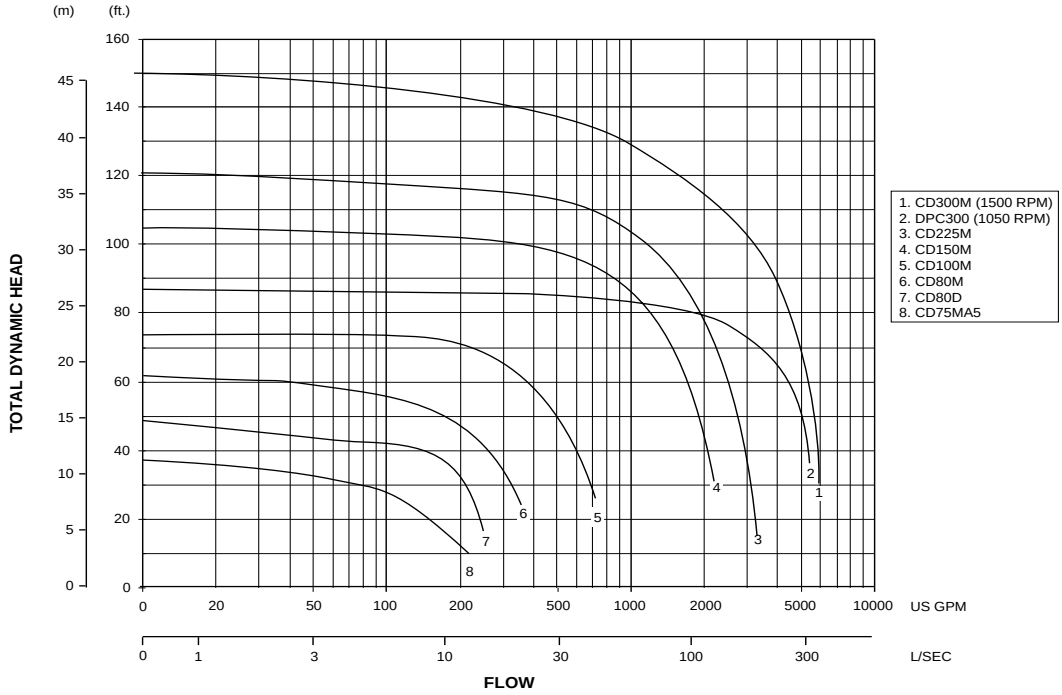

Wastewater Treatment Plant Bypass Project – Temporary installation of twelve 12" DPC300 electric drive Dri-Prime pumps

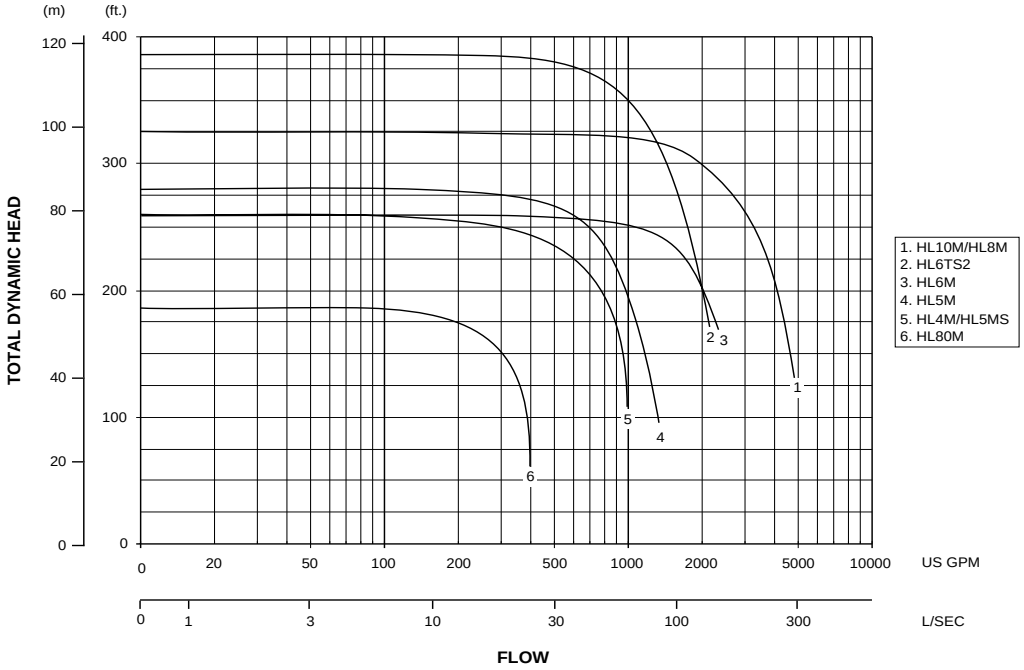

Industrial Wastewater Management – Permanent installation of two 3" CD80M electric drive Dri-Prime pumps
