

[HM650 Hydronic Manometer

The HM650 measures fluid pressure, either differential or gauge. It can be used to balance heating and cooling systems or check pump performance. The HM 650 is compatible with both air and water. It stores up to 999 data points for later recall and can be set up for continuous datalogging or downloading to a PC or printer.

specifications

range	0–300 psi (0–2068 kPa)
resolution	0.05 psi from 0–99.95 psi (0.25 kPa from 0–100 kPa) 0.1 psi from 100–300 psi (0.3 kPa from 100–999.9 kPa) (1 kPa from 1000–2068 kPa)
accuracy	±(2% of reading + 2x the resolution)
display	4-digit LCD with backlight
instrument weight	3 lb (1.36 kg) with batteries installed
batteries	four C-size alkaline or NiCd; minimum 50 hours continuous use
