SERIES T

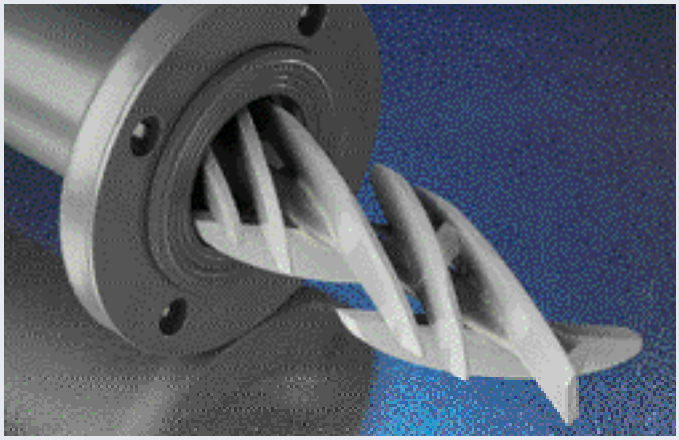

STATA-TUBE™ PROCESS MIXER

Our Series T CPVC/PVC spiral mixers are designed for efficient turbulent-flow mixing at low pressure drops. Available in 1" to 24" diameters, these mixers are ideal for admixing water/waste water treatment chemicals, polymer dilution, and other low-viscosity applications.

- 3/8" to 12" removable CPVC/PVC
- Custom configurations available

Specifications

- **Elements:** PVC or CPVC Type 1, removable
- **Housing:** PVC, Type 1
- **Flanges:** FFSO, Van Stone ASA #150 Drilling
- **Side Ports:** Available upon request
