Jetstream®

Jetstream is pleased to offer a complete line of 40,000 psi units, fluid end conversions, parts and accessories. In the Jetstream tradition, these products are engineered for reliability and simplicity. This translates into less downtime and greater productivity.

Jetstream's 40,000 psi systems offer the most effective surface preparation solution for a wide range of applications including:

- **Ship cleaning, repair and maintenance**
- **Tank cleaning**
- **Concrete demolition**
- **Auto plants**

Ultra High Pressure waterblasting is a superior and safer method than commonly used abrasive cleaning. Both the EPA and OSHA consider waterblasting the preferred method for surface preparation. By using a Jetstream 40k system, no worker is exposed to potential respiratory hazards such as Silicosis. Clean-up is easier and quicker, greatly reducing disposal issues.

Units

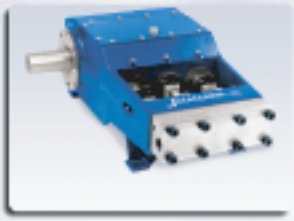

A variety of 40,000 psi unit styles are available to meet your waterblast needs. Jetstream units are built with convertibility, reliability and simplicity in mind. In the field this means easy maintenance, quick conversions, minimal downtime, and GREATER PRODUCTIVITY.

Key Features:

- **Versatile and convertible (conversion kits available from 10-40k psi)**
- **Diesel units powered by the reliable Cummins power unit.* Available from 177-300HP capability.**
- **Electric powered units offered from 125-250HP**
- **Pumps manufactured with billet heat treated steel cranks and ductile iron power frames**
- **Skid, trailer and goose neck styles to meet your particular transport needs**
- **Wide range of available options**

* John Deere and Caterpillar engines are also available

Fluid Ends

Jetstream's fluid end conversions allow you to upgrade your existing Jetstream or other waterblast pumps to 40,000 psi, in the field, in less than an hour, with no special tools required.

Key Features:

- **Cartridge style repair of wear items**
- **Easy packing replacement**
- **Dual rupture disk safety system**
- **Built-in accumulator in manifold, with pulsation damper to improve hose life**
- **40k bolt-on fluid ends available for all Jetstream, Butterworth L375/L450/200 and NLB 10150/10200/10250 waterblast pumps**
