

DCP-40
Dumpstyle Gun

Orbijet

Jetstream's leading, cartridge style Durasafe series, is now available for 40,000 psi applications.

Key Features:

- Jetstream's 30-second field repair cartridge replacement system
- 48" barrel design ensuring operator safety
- Single or dual trigger operation available
- Lightweight (12 lbs.)
- Ideal for use with Jetstream's 3 nozzle rotating Orbijet head

SP-40
Tornado Spinner Gun & Remote Control Valve

The SP-40 Tornado Spinner Gun uses a reliable air actuated dual trigger system designed for maximum operator safety and high field durability. When used in conjunction with the 40k remote control valve tumble box, air from the valve flows to the gun, rotating the nozzle head for maximum waterblast efficiency.

Tornado Spinner Gun Features:

- Sealed bearings for long life
- Lightweight (11 lbs.)
- Double trigger for safe actuation
- Large internal porting for quick pressure release
- Lightweight titanium heads
- Variety of nozzle heads available
- Quick field service overhaul

40k Remote Control Valve Tumble Box Features:

- Industrial duty regulator and oiler
- Heavy duty aluminum frame (3/8" plate)
- Ergonomically designed for easy transport
- Dump and bi-mode models available
- Adapts to autoclave and type "M" style connections
- Cartridge style overhaul and reliability

Parts & Accessories

A variety of 40,000 psi rated parts and accessories are available from Jetstream including:

- Gauges, valves and relief devices
- Nozzles
- Lances, hoses and fittings
- Accessories and filters
