PERFORMANCE MATCHED Jetstream REPLACEMENT PARTS

Jetstream® UNx™ Fluid-End Upgrade

Jetstream® UNx™ Fluid-End Upgrade

Enhance your WOMA® pump with a Jetstream high-performance UNx Fluid-End Upgrade. Making the upgrade is quick and simple with no special tools required — ideal for eliminating troublesome fluid-ends or increasing working pressures.

For use with:

- Ideal for use with Jetstream products as well as all other popular water blasters

Features and Benefits:

- Fewer parts
- Swing down manifold
- Slip fit components
- Pressure convertibility
- UNi-valve cartridge valves
- Single piece water lube packing
- No special tools required
- Available for most other pump makes and models
- For 5,000 to 20,000 psi pressure pumps (call re: 40 psi conversions)

Effective 2/03
Specifications subject to change without notice. Sweepers shown with optional equipment.
