FLUID CONTROL SYSTEMS

2/2-way Miniature Solenoid Valve

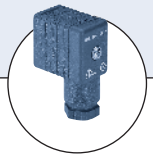

- Direct-acting
- 0 to 304 PSI [1)]
- DN 1.2 to 2.4 mm
- UNF 10 – 32, NPT 1/8 and sub-base
- Approvals:

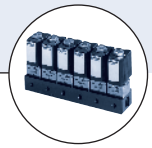

Type 6011 can be combined with…

Type 2506
Cable plug to DIN EN 175301-803* form C

Type 2507
Cable plug industrial standard form B

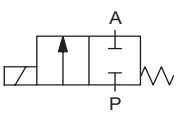

Type 6012
Multiple manifold (e.g. 6-fold)

This direct-acting 2/2-way miniature solenoid valve is available in two versions.

Standard version:
Type 6011 is a miniature solenoid valve used for shut-off, dosing, filling, ventilating and for technical vacuum. It is of modular design and may be mounted individually or as a block on a multiple manifold.

Analysis and vacuum technology:
Type 6011 A is a high-quality miniature solenoid valve for analysis and vaccum technology. It is manufactured under clean-room conditions. This includes thorough cleaning of all parts in contact with media from organic and inorganic substances. The limit for residual hydrocarbons is below 0.2 mg/dm². 100 % of the valves are subjected to a special leakage test with regard to tight seating and tightness to the exterior. The permissible leakage rate is 10^{-4} mbar l/s. The valve is used for shut-off, dosing, filling, ventilating and particularly for analysis technology.

Circuit function A

2/2-way valve, normally closed by spring force

Technical data	
Body material	
Type 6011	brass, polyamide (PA)
Type 6011 A	brass, stainless steel 1.4305
Sealing material	FKM
Analytical version (Typ 6011 A)	version free from silicones, oil and grease leaktightness better than 10^{-4} mbar l/s
Limit value for remainder carbon (Type 6011 A)	<0,2 mg/dm²
Medium	
Type 6011	▪ technical vacuum ▪ neutral gases and fluids (e.g. compressed air)
Type 6011 A	▪ neutral/aggressive media that do not attack the body and seal materials
Medium temperature	14°F to 212°F (-10°C to +100°C)
Ambient temperature	max. 131°F (+55°C)
Viscosity	max. 21 cSt
Port connection	
Type 6011	UNF 10 – 32, NPT 1/8, sub-base
Type 6011 A	G1/8, sub-base
Operating voltage	
Type 6011	24 V DC, 24 V/60 Hz, 120 / 240 V / 60 Hz
Type 6011 A	24 V DC, 230 V / 50 Hz
Voltage tolerance	± 10%
Duty cycle/single valve when mounted as a block on a manifold	100% continuous rating Intermittent operation 60% (30 min) or with 2 W coil (on request)
Electrical connection	▪ to DIN EN 175301-803* Form C for cable plug Type 2506 (see Ordering chart for Accessories) ▪ Form B (industrial standard) for Type 2507 (see Ordering chart for Accessories)
Installation	as required, preferably with actuator upright
Installation	no oil, grease or silicones to be used as installation aids
Mass	ca. 125 g
Protection class	IP65 with cable plug

[1)] Pressure data [PSI]: Overpressure with respect to atmospheric pressure
